Trade & Prices (2024)

In 2024, Germany recorded an estimated trade balance of USD 250 billion (surplus). Consumer price inflation was approximately 2.4%, and the unemployment rate stood at approximately 3.4%. Top exports include Automobiles, Machinery, Chemicals, and Electrical equipment. Top imports include Crude petroleum, Natural gas, Electronics, and Automobile parts.

Outlook

A slow but steady recovery is anticipated as energy prices stabilize, though competitiveness pressure from EV transition costs and global trade tensions remain key risks.
